**PAUL McDONNELL HOMES LTD**

To Whom It May Concern:

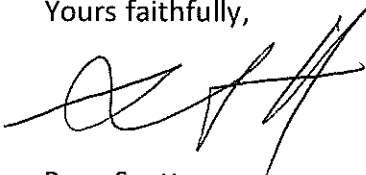

My husband and I contracted Paul's team at Paul McDonnell Homes Limited in October of this year to undertake a complete renovation of our bathroom at our home. The job involved reducing the size of the existing bathroom, creating a new, separate en suite, and a new wardrobe and laundry enclave.

We were extremely happy with the work undertaken, and the efficiency and thoughtfulness of the entire team. Paul and his team were able to start work almost as soon as we asked them to and the work done was done quickly and to a very high standard. The job was completed well within the timeframe that had been given in the outset.

We were also extremely impressed with the care with which the team took to try to cause as little interference to our day-to-day life as possible while still working efficiently. When the work was completed we were delighted to see the effort that the team had taken to clean up as well.

We very much appreciated Paul's extensive knowledge and advice, and the way that he kept us fully informed as to the progress of the works. We would not hesitate to recommend Paul McDonnell Homes Limited to anyone who is in need of similar services.

Yours faithfully,

Rose Scott
